### Head Lice

Home remedies for removal of head lice and nits

Whatever remedy you try you should comb through the hair after treatment with a nit comb. 10 days after treatment do the whole procedure again to ensure nothing remains in the hair.

Treat all members of the family even if they are not even scratching. Also it is important to wash towels, bed linen and all other soft furnishings the infected person may have been in contact with.

Head lice - tips and hints for removal

**Listerine and white vinegar:** Pour Listerine through the hair, cover head with a shower cap and leave on for two hours. Rinse away the Listerine and the head lice too. Then pour white vinegar over the head. Comb through. This apparently removes the gluggy stuff that enable nits to stick to the hair shafts. Rinse hair well.
