Engine Driver's Message

The excitement is building and everyone is waiting for Healthy Harold to arrive. The van will be in the school Thursday and Friday so please ensure that you send your child's note and money back. If they would like to purchase merchandise it needs to be in a separate envelope.

Miss Vaughan has received the order of robots for the library and she has started using them with all classes. I am not sure who is enjoying them more the students or the teachers?

Swim School notes need to be returned ASAP as we only have 40 spots. This is a great opportunity for students in year 2-6 to develop valuable skills in and out of the pool.

Kindergarten orientation will continue this week after a very successful first transition. Both the parents and the students seemed to have a great time. There are also transition dates coming up for Year 6 so keep your eyes peeled. Unfortunately, our photo fundraiser had to be cancelled due lack of interest but please remember to send in your 5c coins for our P and C fundraiser.

Mrs Pascoe will be out of the school for most of the week on personal leave and attending a principals meeting.

Have a great week...

P & C Xmas Hamper Door Prize

It would be appreciated if parents could send in donations towards the P & C Xmas Hamper door prize which is raffled Presentation Night.

Healthy Harold

Notes and money need to be returned by Thursday 10th if you would like your child to attend the Healthy Harold sessions. If you have a merchandise order, please send in separately with the correct money.

Library Stocktake

Library stocktake will commence on Monday 5th December. To ensure that the process runs smoothly please have all library books returned no later than Monday 28th November. Students will not be able to borrow after that date.

Swim School

There was an error in the note which went home. The cost of \$35 is for the bus only as the entry fee does not apply as we are having a fixed program from the YMCA.

Live Life Well @ School

Hello Live Life Well @ Schoolers

There is increasing evidence that regular physical activity improves children and young people's cognitive skills and academic performance, as well as improving health and wellbeing.

Research suggests that physically active children and young people are better able to concentrate on tasks, are faster to perform simple tasks, and have improved memory and problem solving skills, compared to those who are less active.
